Mr. Pravin Patel

## C.M.D.

Our Company was established in 2008 to carry out a special mission to provide a huge & fine range of laminates, all over the world. Together, we've been able to create a legacy of excellence. Airolam Laminates boasts of technologically supreme products that are at par with global standards with stringent quality checking done at every step.

# GROWTH SINCE DECADE

## INFRASTRUCTURE

World class state of the art manufacturing unit of airolam ltd. is situated in gujrat. since, airolam is environmentally responsible company & takes the leadership role by setting example for competitors. from the very first step in the manufacturing process to the final product, everything is carefully monitored & meticulously scrutinized for the best quality.

Airolam has been awarded for its superior design, quality ,systems & environmental commitment, iso 9001, iso 14001, green label, green guard, FSC.

we follows, rigid international quality standards like, nema, ( national electrical manufacturer association) of the U.S. and Bs-1406 (British standards) of U.K.

## QUALITY

Airolam confirms | 100% phenolic laminates | design papers from European & Japanese manufacturers | craft paper – a grade, virgin craft paper | sanding by world class, IMEAS machine, ensuring best sticking & above all, use of overlay paper, that increases the life of design paper.

## HIGH PRESSURE LAMINATE

# Airolam LAMINATE

Airolam High Pressure Laminates are conducive to both vertical & horizontal applications including furniture, laboratories, medical instrumentation, bathroom cubicles, exterior facades and outdoor furniture. Also works exceptionally good in high traffic areas such as hospitality, office spaces, healthcare, retail and commercial spaces.

Laminates are materials used for surfacing. They are spread as an additional layer on an under layers of plywood, MDF, particle board etc. Specially selected decorative papers and absorbent kraft paper infused with melamine and phenolic resins lead to the making of Airolam High Pressure Laminates; which are further hardened and pressed in the influence of heat and high pressure. Resistance to boiling water and stains, increased dimensional stability, surface protection through special treatment providing scratch resistance – all these are the adorable, admirable traits of Airolam HPLs. Over a 1000 designs, 35 finishes and various sizes, Airolam HPL serve the customers with enriched diversity and overwhelming beauty along with 'fashionable furniture'.

### APPLICATION

Home Furniture | Wall Paneling | Column Cladding  
Doors | Work-Tops | Vanity Units | Cubicles  
Check-Out Desks | Office Partitions | Storage units
